

FIRING SERVICES

The Hilldav Potters Warehouse runs a firing service for its customers.

With over 25 years experience in firing, we can help you with all your firing needs, from pottery and ceramic objects to heat treatment for metals. It doesn't matter how small or **large** your piece is, if it fits into one of our kilns we can fire it.

If you only have a **few items**, we charge by the weight.

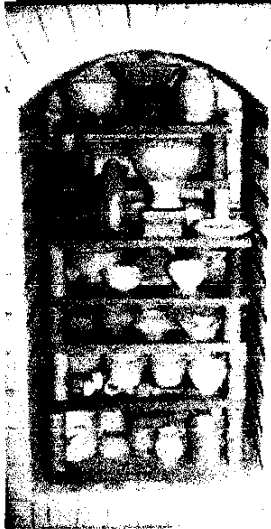

1/- **\$4.50 / kg** for all firing with a minimum charge of **\$2.80** for anything under **600g**.

If you **have a lot of items** or want a temperature that we do not normally fire to, then you may find it better to hire a kiln. You **MUST** book in advance if you want to hire a kiln.

2/- **YOU LOAD** You book the kiln for a certain day. On that day you come and load the kiln, we will look after the firing, then you unload the kiln on the day that the firing is finished.*

If you can't do this then what about

3/- **WE LOAD** You bring the work in, we load the kiln, look after the firing and unload the kiln for you. All Hilldav kilns are controlled by Harco programmable temperature controllers, insuring you get the firing that you asked for.
