

# Sieves

Pic 3

## Rotary Sieve

Tapered, plastic body fits firmly on any round container. Handle extension allows it to rest on extra containers. The Push-in screen with moulded rubber rims are interchangeable. The brush-cluster is rotated against the screen by turning the handle and the pressure required is regulated simply by pressing on the handle as it is turned.

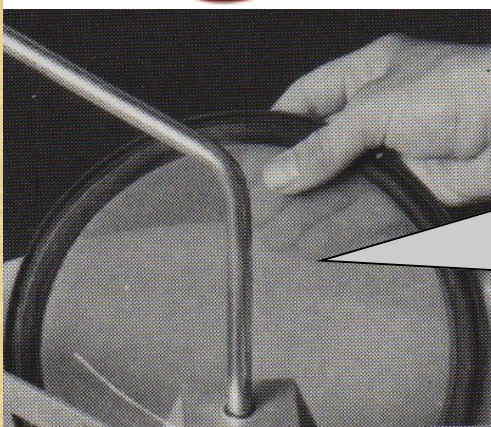

**Rotary Sieve** with your choice of screen **\$197.27**

## Hand Sieve

Uses same size screens and is handy for smaller batches or test glazes. Tapered body will fit normal size bucket. Comes complete with spatula.

**Hand Sieve** with your choice of screen **\$73.28**

## Push-in Screen

Push-in screens with moulded rubber rims are interchangeable. Stainless steel screens available in meshes 40, 60, 100, 120, 150 and 200 per inch.

**Push-in screens** each **\$43.30**

## Test Sieve

Ideal for sieving stains and test batches of glaze. Available individually in mesh size as above.

**Test Sieve** each **\$27.28**
